

- Laser Forms - Up To 8 Colors
- Jumbo Rolls - Up To 8 Colors
- Variable Bar Coding
- Folding
- Padding

The beginning of the 2nd quarter of 2010 is upon us and without much change to note with the exception of announced paper increases by our major suppliers. Domtar, Glatfelter and International Paper have all announced increases for May 10, 2010 for uncoated papers of \$3.00/CWT. The increase includes White Laser MOCR, Colored Forms Bond, and Ledger grades. Along with this increase is the additional increase on Offset and Reply Card to go along with the \$2/CWT increase we have seen in March. Security grades were increased in March as well by upwards of \$4.00/CWT. We do not anticipate this to be the only increase we will see this year and expect additional announcements in the 3rd quarter of 2010. White 50 lb. Offset paper is readily available with pricing at or below market, whereas 60 lb. Offset is a little more difficult to come by and deliveries are out to 4 weeks in some instances. Quick Tech has been, and will be, increasing inventory in advance of the increase date and encourage you to take advantage of the lower pricing while it lasts.
